

## Analog Brix Meter-Sweetener

### Product Specifications

measurement	sugar degree
scope	0% to 32%
resolution ratio	0.2%
precision	$\pm 0.2\%$
Automatic Temperature Compensation (ATC)	10° C to 30° C
size	40mm x 175mm
weight	250g

#### Model 12220

- handheld analog instrument
- Lightweight and easy to carry, protective holster included
- Measurement of sugar concentration and dissolved solids in aqueous solutions
- Automatic Temperature Compensation (ATC)
- Ideal for field measurements of juices and other sugar-based liquids
- Determine fruit quality during harvest, transport, reception, handling, storage
