FlashLink. mini

Product Specifications

working range	−40° Cto 66° C
temperature control accuracy	0.5° C, 32° Fto 150° F (0° Cto 66° C), 1.0 ° C over the entire range
temperature resolution	0.1° C
data capacity	3,823data points
Data download time	5seconds
Programmable alarm levels	Highand low levels throughout the range
LED indicator	Red flashing alarm, green active
type of battery	button lithium battery
size/cabinet	68.07 mm L x 32.25 mm Wx 11.43mmABS plastic housing
weight	18.14grams
prove	CEmark, RoHScompliant, NISTtraceable
software requirements	FlashLINKLabelS oftware for FlashPDF Program Manager Software
Certification	CE Mark, Calibration Traceable N.I.S.T., RoHS Compliant, BSS 7061 Compliant
Min. System Requirements	Windows PC w/current operating system
Software and Adapter	CT-USB Adapter and/ or FlashPDF Software Kit

Model 30024

- Ideal for documenting storage and transport conditions for temperature-sensitive products

- User programmable: manual or automatic start, sampling interval, alarm limits, data labels

- Easy download to PC using CT-USB adapter

- Traceable to NIST and CE marks
